Problem/Opportunity Statement

- Returned Expense Reports
 - Prior to the upgrade of OAKS Fin to version 9.2 in September 2015, Expense Reports were sent back to Travelers for revision (SBR) at rate of 25%
 - After the OAKS Fin upgrade, Expense Reports were sent back to Travelers for revision (SBR) at rates up to 35%. This increases the time to approve Expense Returns. The increase results in a higher Service Level Agreement Processing rate and increased processing costs. It also delays reimbursements, increasing dissatisfaction and frustration among Travelers.

Project Goals

- Reduce the SBR rate to the previous threshold of 25% or lower
 - Shorter processing time
 - Reduces processing costs
 - Expedites reimbursements
 - Increases traveler satisfaction

How We Improved

- Created “Tips & Tricks” travel videos for FIN Source
- Recommended language changes to auto generated emails to include reminders
- Recommended changes to several Help buttons in OAKS to provide travel tips

Reviewed OBM Travel Rule
Reviewed process with Pre-Auditors
Changed process in October 2017 to allow for variation of travel dates between Travel Authorization and Expense Report with proper documentation/receipts.

As a Result...

A review of the SBR rate from 12/26/2017 to 1/31/2018 shows that the rate has **decreased** from 33.1% to:

21.54%
